When *George Washington* agreed to the Declaration of Independence many, many years ago, he knew that it would be a day of celebration for Americans. He never knew however, that it would be on the *Fourth of July!*

The Declaration of Independence was originally adopted by Congress on July 2, 1776, but was then revised and the final version was adopted two days later.

BBQ

The word "barbecue" came from the Arawak Indians of the Caribbean.

The barbacoa was a grating of green wood upon which strips of meat were spread to cook or dry over a slow fire.

While the percentage of American homes with an outdoor grill is 87% the number of Americans who will spend the holiday at other people's homes is over 41 million. Better tuck that grill away for safekeeping!
